Dear Mr. Ferguson

I would like to apply for the post of Comberator (Ref. OP55/00) as advertised in the Rintonbury Eagle on 4 July 201?. I have 18 months experience of this kind of work as part of a job I had with Halicombo Ltd. After six months training I operated a DD44 comberator to produce pingies and jingies. This was very challenging, but also enjoyable. I was able to reach production targets and work fast enough to earn bonuses. After leaving there I moved on to other kinds of work but would like to return to comberating as I found it both interesting and rewarding.

I am good at working in a team and can achieve targets, as mentioned in your advertisement.

I am keen to work for a company like yours that offers good prospects and look forward to meeting you to talk about the job. I could start immediately and can supply good references.

Yours sincerely

Lee Kirkwood
